

Become a Certified HEALTHCARE BUSINESS CONSULTANT!

The **only certification** built for consultants who want to be the go-to problem solver for every physician, dentist, and healthcare business owner they support — across every corner of their business, not just their lane.

NSCHBC membership required to enroll*

WHY GET CERTIFIED

Open doors your expertise alone can't.

The CHBC signals to prospective clients that a national body recognizes you as someone who understands the full scope of what their business needs.

Confidence across every corner of your clients' businesses.

Healthcare is shifting fast. The consultants who thrive aren't just the most experienced in their lane — they're the ones who can help clients navigate the whole system.

Lead and shape the future of NSCHBC.

Certification is required to serve on the board, teach the course, and hold leadership positions. It's how you go from member to driving force.

CERTIFICATION IS FOR YOU IF...

- **You have 5+ years working with healthcare clients** in revenue cycle, practice management, CPA & tax, compliance, operational consulting, or other domains that intersect when consulting.
- **You already call yourself a consultant — and want the credential to match.** You've built real expertise. The CHBC makes sure everyone else knows it too.
- **You want to spot problems beyond your primary specialty.** Not to become an expert in everything — but to see what's happening across your clients' whole business and get them the right support fast.
- **You want to lead within NSCHBC.** Certification is required for board service, teaching, and executive roles.

13 DOMAINS COVERED ON THE EXAM:

- Consultant Professional Standards
- Organizational Governance
- Business Management
- Financial Management
- Human Resources Management
- Revenue Cycle Management
- Business Operations
- Compliance
- Quality Management
- Information Management
- Risk Management
- Taxes
- Retirement

New to healthcare consulting? We recommend joining NSCHBC and building a few years of experience first. The CHBC is designed for seasoned practitioners.

TWO WAYS TO GET CERTIFIED

- **Live Review Course + Certification Exam • \$2,500 total**
June 3–5, 2026 — Cleveland, OH | Exam: Saturday, June 6 at 8am. Three days of classroom-style instruction across all 13 domains, led by NSCHBC's most experienced members. Ask questions in real time, learn alongside a cohort of peers from across the spectrum of healthcare consulting, and sit for the exam while everything is fresh. Includes review materials, exam, breakfasts, lunches, Opening Reception, and President's Awards Reception.
- **Online Review Course + Certification Exam • \$1,900 total**
Self-paced — 90-days to complete | Exam taken online, proctored, pre-recorded sessions from the live course instructors, available on your schedule and rewatchable as many times as you need. Ideal for busy practitioners who want to work around their client commitments.
- **Exam Only • \$600**
For those ready without a review course

NOTE: NSCHBC MEMBERSHIP IS REQUIRED TO REGISTER FOR THE CHBC — NOT INCLUDED IN CERTIFICATION PRICING.

FROM YOUR FELLOW MEMBERS

"I tell my clients I'm a certified problem solver for doctors and dentists. Anything that happens on the business, financial, and operational side — I can help with that. And when they engage with me, they have access to a bigger team of people to help solve for whatever their needs are."
— **Julie Simpson, CHBC | Director of Advisory Services**

"I already knew what I needed to know. I just needed the credential to show that I know what I'm talking about."
— **Sirisha Bommireddipalli, CHBC | Founder, Metcon Converge**

EXAM & CERTIFICATION DETAILS

- 200 questions, 4-hour timed exam
- 70% or higher to pass — results given immediately
- One free retake included if needed, within 1 month
- Maintain your CHBC with 30 CE hours every 2 years, at least 12 from NSCHBC
- NSCHBC membership required — not included in pricing
